

5 Arsenal

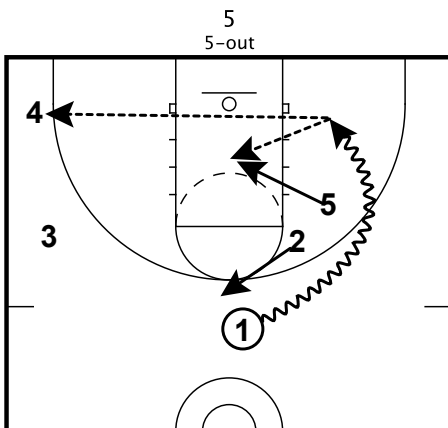

1 will dribble at 4 as if he's going to get into a DHO with 4. 1 will reverse direction and hit 5 spacing to wing.

On the catch 5 will immediately get into a DHO with 2. 5 needs to dribble at 2's defender so the DHO can happen as close to the 3 point line as possible.

2 will get the ball reversed back to 1 and set a ball screen. 5 will follow 2 for a 2nd ball screen. 4 and 3 will exchange on the weak side to occupy defenders.

1 will use the double ball screen. 1 needs to hunt the baseline to get a better passing angle to hit 5 on the slip.

If 5's defender switches the ball screen, 5 needs to slip early. 2 will pick and pop.
